Corazones Enamorados Exhibit Brings Heartfelt Art to El Paso International Airport

WHO: El Paso International Airport and the Hearts to be Healed Foundation

WHAT: Grand Opening Ceremony

WHEN: 10:30 a.m. Thursday, February 6, 2025

WHERE: Main Lobby of the El Paso International Airport

El Paso International Airport (ELP) welcomes to the public to the grand opening ceremony for the ***Corazones Enamorados***, a free art exhibit to be on display the entire month of February in the Airport's main lobby.

This display features four large-scale metal 3-D heart sculptures designed by Hector Enriquez, Director of the Hearts to be Healed Foundation, and fabricated by artist Adrián Castruita. The *Corazones Enamorados* sculptures are part of a larger series located at other locations across the city.

These hearts symbolize love, healing, and connection, aligning with the mission of the Hearts to be Healed Foundation, which is dedicated to fostering emotional healing and mental health awareness through community-based art projects and initiatives.

This meaningful collaboration was made possible through a partnership between El Paso International Airport, Border Heritage Magazine, and Se Feliz Foundation, A.C., which generously funded the exhibit. Together, they bring this unique experience to travelers and visitors, shining a spotlight on the local artists and organizations enriching the El Paso community.

"We take great pride in presenting meaningful and unique art to our traveling public while championing the work of local artists and community-focused foundations," said Tony Nevarez, Director of El Paso International Airport. "This exhibit beautifully reflects the vibrant cultural and artistic essence of El Paso."

Airport visitors are encouraged to explore the remarkable craftsmanship and artistic detail of the sculptures. Each piece conveys a profound story of healing and hope, fostering meaningful connections among those who experience them.
